

WiscNet Servers

| Service | Hostname | IP Address | Notes |
|------------------------------|-------------------|--|---|
| Recursive DNS (resolvers) | rdns1.wiscnet.net | 205.213.254.254 2001:4e0::53:1 | <div> Do not set these as NS records for your Authoritative domains (dns hosting)</div> Use for DNS resolution for your WiscNet Network Access connection. Will only respond if on Wiscnet's network. |
| | rdns2.wiscnet.net | 216.56.254.254 2001:4e0::53:2 | |
| Authoritative DNS | ns1.wiscnet.net | N/A - Only use the hostnames for your NS records. | <div> Do not set these as DNS servers for your clients or as upstreams for your own resolvers.</div> Point your registrar's NS records to these IPs if WiscNet is hosting your DNS domain. Please use ns1/ns2 for any newly registered domains. In 2021, WiscNet switched names for authoritative DNS to ns1/ns2. If you have these name servers listed, they will continue to function: <ul style="list-style-type: none">• dns.uw-mad.wiscnet.net• dns.uw-mil.wiscnet.net |
| | ns2.wiscnet.net | N/A - Only use the hostnames for your NS records. | |
| NTP | ntp.wiscnet.net | | |
| SMTP | mail.wiscnet.net | | Contact WiscNet for mail relay access Port 587 for SMTP using TLS |
